Instead of "GIMCRACKS," why not something of standard value for Christmas. Each Christmas it is the problem of the little gifts that makes your shopping hardest. How many times have you in sheer desperation scattered "Jim-cracks" among your friends, and faced it out shamefacedly with the time worn phrase about taking "the will for the deed?"

If Christmas is the season of Charity, why not give as you would be given to, and use the same discrimination for quality in the lesser as well as in the more important gifts?

HUDNUT or COLGATE on toilet articles.

You would be glad to receive, and you need not hesitate to give such articles as are mentioned here. Each is the standard of its kind. You are giving the best, no matter how little you pay. And after all one can give no better than the best. If you examine our stock you will find the proof of our assertions.
